

Z E E K I S M S

New Project 316 Ministry Team members: Recently we've been able to recruit three new believers with the help of our partner, Nathaniel (who lives in Singapore). They are very excited and ready to distribute whatever amount of players and micro-SD cards we can get to them. They live in a very remote but strategic location and have access to numerous Hmong villages in southeast Asia.

JUST LIKE APOLLOS

In 1 Corinthians 3:6 Paul the apostle says, "*I planted the seed, Apollos watered it, but God made it grow.*" And in Acts 18:24 it says that Apollos was known to have "*a thorough knowledge of the Scriptures.*" Apollos' role was like that of the Project 316 audio players. As most of you know, for many years Hmong believers in southeast Asia have had very little training in the Scriptures. But thanks to the 350+ hours of Biblical teachings on the audio players, our Hmong brothers and sisters are gaining the knowledge they need in order to grow in their faith.

I'm sure Apollos loved what he did, especially as he was able to see the results of his efforts. It must have continued to motivate him to do all the more. He understood what Paul said in Ephesians 2:10: "*For we are God's workmanship, created in Christ Jesus to do good works, which God prepared in advance for us to do.*" I thank God that we (including all of you who support us in this ministry) are able to be a part of the life-changing work that God has given us. With the distribution of thousands of audio players, we have seen much fruit. There is so much more that is yet to be done! Our team members communicate with us on Facebook and always ask for more audio players, because they see

the impact that the players have, and they want to get God's Word into the lives of the people.

MICRO-SD CARDS

As you may also recall, in the past we've been able to distribute micro-SD cards for cell phones. Initially, we gave some of these cards out for free, but since the contents of the cards could have been erased we decided to make them available only to those willing to pay a small fee (the cost of the micro-SD card itself). However, all that has changed now. The contents can no longer be manipulated or erased. Therefore, we feel confident that the cards will be used for their intended purpose. So, we will now be distributing both audio players and micro-SD cards at no charge.

THE CRITERIA

For those who don't have cell phones or live up high in the mountains where there is no electricity, they will be given solar-powered audio players. For everyone else, we will hand out micro-SD cards. The micro-SD cards cost about \$10-12 dollars a piece. We will have to wait and see how the response will be. One potential downside of the micro-SD cards is that a cell

phone battery doesn't last long. So, if you are out doing field work all day, you might only have about an hour or two to listen before your phone goes dead. We are not going to let that deter us, because it will be far more beneficial for believers to have something rather than nothing.

Prayer Requests

Please pray for...

- The three new Hmong believers who have decided to become part of the Project 316 ministry team.
- All of the believers who help make this ministry successful.
- More funds to come in for the audio players and micro-SD cards.

God bless,

Mike, Sonja,

Sinjin and Mikaela
