Creativity in Perilous Times

Despite taking the necessary precautions to help prevent the spread of the coronavirus disease, our brothers and sisters in Southeast Asia realize that they can't live in fear. Those who have been persecuted for their faith understand how fragile their life is and continue to put their lives into the hands of God. During these times believers, both in the USA and around the world, have gotten more creative with how to meet safely. Usually this church building

(in the picture above) is packed with many Hmong believers. But they've also been restricted from meeting together in large

groups. In Vietnam and Laos combined, there are less than 500 reported cases of Covid19. Hopefully, by God's provision, when things settle down, I look forward to meeting many of these believers pictured here. Despite not being able to visit them, Project 316 goes on.

We certainly hope that you have been encouraged with the photos that we send out with the newsletters each quarter.

Fellowship International Mission 555 South 24th Street, Allentown PA 18104

John 20:27-30

My sheep listen to my voice; I know them, and they follow me. I give them eternal life, and they shall never perish; no one can snatch them out of my hand. My Father, who has given them to me, is greater than all; no one can snatch them out of my Father's hand. I and the Father are one."

Prayer Requests

Please pray for...

- **The continued financial need to provide more Project 316 audio players to those who are patiently waiting.**
- **The opportunity, not just for our Hmong brothers and sisters, but for all of us to be given opportunities to share the Gospel with our non-believing family and friends during these times that we live in.**
- **Praise God for all those who have received audio players or micro-SD cards. Total players distributed to date: 2,576.**

You can obviously see the joy on the peoples faces when they receive an audio player. And what is even more exciting is that there is a certain group of local churches who have approached and asked me if it would be possible to raise some of their own funds for more audio players. They've desperately wanted more audio players for a long time, but since the demand is so high, we can only afford to give out a limited number. Some are also receiving the micro-SD cards so that they can use them in their cellphones, but the majority (especially those who live up in the mountains) still have need for an audio player. Entire villages haven't received any audio players, but they have heard about them and sincerely desire to have one for themselves. So please consider help-

ing our Hmong brothers and sisters out by financially supporting Project 316.

God bless,
Mike, Sonja, Sinjin,
and Mikaela Zeek
