Yes, even kids can be involved in Project 316!
One of our 316 Ministry Team members sent us this photo of their kids helping upload audio players.

3000 Project 316 Audio Players Distributed!!!

Despite the challenges we've encountered over the past couple of years, we are still reaching Hmong believers who desperately want to have a Project 316 Audio Player in order to be equipped with the foundational teachings that all believers need to have. Our desire for them is to become fully developed, authentic, evangelistic disciples of Jesus Christ, and the audio players play a significant part in that process. We praise God that we've been able to impact so many. A significant advantage that these

players give is that they are getting solid Biblical teachings from a significant number of different teachers. Our Hmong brothers and sisters struggle to find knowledgeable Bible teachers within the Hmong Christian community in Southeast Asia (although that number is growing, praise God!). They are few in number and spread quite thin. The believers have a tremendous appetite for the Word, but with no consistent teachers and teachings, they are always hungry. On top of that, we have found that even

those recognized as teachers still have a lot to learn when it comes to many areas of theology. They do their best to teach what they know. Because of these challenges, the audio players have become a huge game changer in aiding those villages that normally don't have knowledgeable teachers within the local churches. However, despite not knowing much theology, the Hmong have a deeply rooted relationship with Christ and are committed to their faith. They realize the seriousness of being a believer in hostile situations, but they are more than willing to put their lives and livelihood on the line for the

sake of the Gospel. They won't back down! We can certainly learn much from them in this regard.

We praise God that we have been able to distribute 3,000 players so far (including a shipment of 155 players that are in the process of being sent out), but there are literally thousands more who desire audio players. As a reminder, there is nothing like what we have been able to give our Hmong brothers and sisters via these players in all of Southeast Asia. They don't have

the ability to access what we have since many of them are either poor and/or live high up in the mountains. So providing them with these audio players is a huge benefit to the body of Christ. Maybe a day will come when they won't need the audio players anymore. But for now, the Project

316 audio players are the only reliable source of teachings many have access to on such a grand scale. So, we ask you to help us provide more funds for the audio players. There are still thousands who are waiting. We distribute one audio player per family. Many villages are small and isolated up in the mountains, and average only 1-2% believers. Therefore, a gift of 15-20 audio players (approximately \$750-\$1000) will equip the entire church in that village! What a huge impact!

God bless,

Mike, Sonja, Sinjin and Mikaela

PRAYER REQUESTS

Please pray....

- That the latest shipment of Project 316 audio players will arrive safely and be distributed efficiently into the Hmong villages that need them.
- For wisdom and God's direction for the 316 Ministry Team as to where to distribute the audio players.
- Praise God for the distribution of 3,000 players!
- Praise God for the on-going end-times small group Bible study that is taking place via online video in SE Asia.
